Custom M4A1

How to Install ?

FiveM :

Create a folder, place another folder called "stream" and a resource.lua in the folder you created. Then put the gun files into the stream folder and start it in your server.cfg

Singleplayer :

\Grand Theft Auto V\mods\update\x64\dlcpacks\patchday2ng \dlc.rpf\x64\models\cdimages\weapons.rpf

Drag and drop into this folder
